Weald Granary were represented at the South-East Agri-Expo on 1st March. This year we had an indoor stand to avoid the cold and we were delighted to see a number of our members on the day.

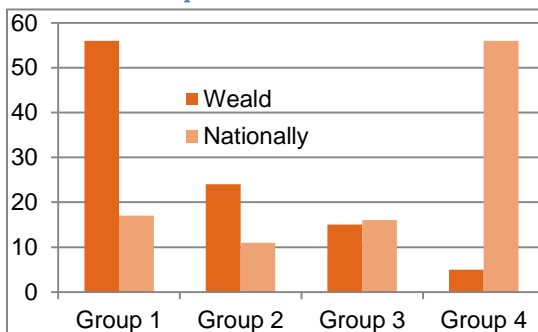

All signs lead to WEALD GRANARY!

Member gate signs are available free of charge for all our members, they are currently at the store and will be distributed soon.

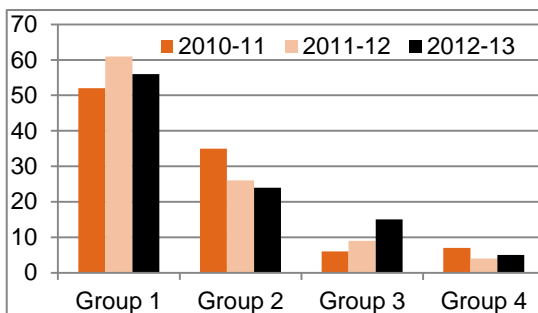

Weald compared with National

This graph shows the comparison of the Weald commitment with the National plantings. The Weald Granary variety mix is almost a mirror image of the national picture, as shown left.

Weald Wheat Trend by Nabim Group

Openfield marketing has again helped to secure robust premiums for Group 1 & 2 wheat.

Based on our current commitment for the 2012 harvest we have been able to map the trend of varieties committed to the Weald pools.

DAF's the way to do it!

Our new Weald Truck carries more & costs less. The new Daf XF 105.510 driven by Dirk came into operation in December and carries ¾ tonne more due to the weight saving axle configuration; fuel consumption figures are also more favourable.

Oilseed Rape Premiums

OsR moisture & admix premiums have been paid to the members in March for dry & clean seed under 9% & 2% at intake (see table below). This has been well received. Credits have been set for this year so that ~half of the revenue received from moist & admix credits is paid back to members delivering dry, clean osr in, the avg credit to members is £1.86/t. The remaining ~£2 to £2.50/t estimated revenue received is included in the overall osr pool prices as usual.

Admix	
1.51<2.0%	-0.75
1.1-1.5%	-1.5
0.51-1.0%	-2.25
0-0.5%	-3
Moist	
8.51<9.0%	-0.75
8.1-8.5%	-1.5
7.51-8.0%	-2.25
7.1-7.5%	-3
<7.0	-3
